TeachFX

A vision to provide a high-quality education for every child through more conversational & equitable classrooms.

- ✓ Increase academic ownership and student engagement.
- ✓ Help teachers become more aware of the impact of the Wait Time on student outcomes.

We can cultivate those shifts in our classrooms through:

1. A shift in coaching conversations
2. A shift in teaching practice
3. A shift among students in the classroom

A shift in coaching conversations

Simple technology + personalized PL has changed our coaching conversations by giving teachers

- ✓ **Autonomy**
- ✓ **Feedback**
- ✓ **Reflection**

A shift in teaching practice

With supports that feel connected to the reality of their classrooms, teachers can change their own practice

A shift among students in the classroom

- ✓ Academic ownership happens when teachers are comfortable creating the space for it
- ✓ Student talk increased – 55% to 97% depending on how frequently teachers use TeachFX.
- ✓ Teachers are reporting far fewer behavior management struggles because they see their kids taking ownership of their learning
